

LOS CABOS

BREATHTAKING SIGHTS WHERE TWO SEAS MEET

At the southernmost tip of the Baja California Peninsula, Los Cabos shines with breathtaking landscapes that include rocky cliffs and stretches of desert meeting the waters of the Pacific Ocean on one side and the Gulf of Mexico on the other. More natural landmarks await, including The Arch and Neptune's Finger. Each of these geological beauties is set in front of a crystalline backdrop of sea in which guests can kayak, snorkel or swim.

Of course, visiting Land's End can be the beginning of memorable adventures in the peaceful Lovers Beach, its more frenetic neighbor Divorce Beach, as well as more amazing sights such the sea lion colony and the whales migrating each winter. Add on a vibrant night life, upscale dining, boutiques and more, and Los Cabos rounds out a great vacation that mixes the wonders of the natural world with the conveniences of a modern getaway. Let your clients live it all with Amstar!
